

Mark 6™

A flexible system that delivers solid results

Car-O-Liner's Mark 6™ is a mobile bench system with the added convenience of drive-on mounting. It's designed around the idea that the more flexible a collision repair system is, the more productive it will be. With a series of configurations to choose from, Mark 6 means

flexibility in getting the combination of equipment best suited to your business. You can even build a system of your own using a combination of benches and accessories (all accessories are interchangeable). And you can update your Mark 6 system as your needs grow.

Inground installation leaves frame level with floor allowing for easy drive-over and clean shop appearance.

Longer bench arms allow maximum work space between bench and underside of vehicle.

Powerful 10-ton Draw-Aligners pull from almost any angle 360° around the vehicle.

Optional mounting arm (B310) clicks in and out for faster loading and unloading.

Optional chassis clamp (B110) offers faster setup and removal using just two bolts.

Approach ramps that easily can be converted into wheel stands, that gives excellent working conditions.

Car-O-Liner is a Leading Global Provider of Assured and Profitable Alignment Processes to the Automotive Industry, including Technical Development, Training and Service. Over 40 000 Car-O-Liner Collision Repair Systems are in use worldwide. Car-O-Liner runs operations of its own in Scandinavia, USA, UK, France, Germany, Thailand and China and sells through local distributors in more than 70 countries.

Car-O-Liner products are well known for their high quality, advanced technology and ergonomic design.

Car-O-Liner and Josam are both part of the Alignment Systems Group. Car-O-Liner is focused on servicing the car and light truck industry while Josam is focused on heavy duty vehicles.
